PROJECT MANAGER

Since 1993, Angus GeoSolutions Inc. (AGSI) has been a provider of technology, data and information solutions, empowering government, telecommunication, utility, financial, and agri-food organizations to make better, more informed decisions. As a Project Manager your responsibilities include delivering every project on time within budget and scope.

AGSI expects project managers will have project management certification as well as a background with business skills, management, budgeting, and analysis as well as thrive when planning projects and working with project teams.

Primary Responsibilities, include:

- Coordinate internal resources and third parties / vendors for the flawless execution of projects
- Ensure that all projects are delivered on time, within scope and budget
- Developing project scopes and objectives, involving all relevant stakeholders and ensuring technical feasibility
- Ensure resource availability and allocation
- Develop a detailed project plan to track progress
- Use appropriate verification techniques to manage changes in project scope, schedule and costs
- Measure project performance using AGSI systems, tools and techniques
- Weekly project status & financial report to management
- Escalate issues to management immediately as needed
- Manage the relationship with the client and all stakeholders
- Perform risk management to minimize project risks
- Work with AGSI Management to establish and maintain relationships with third parties / vendors
- Create and maintain comprehensive project documentation

Skills & Qualifications, include:

1. Minimum university educational background, preferably in the fields of computer science or engineering for technical project managers
2. Proven working experience as a project manager in the information technology sector
3. Solid technical background, with understanding or hands-on experience in software development, web technologies, and / or big data
4. Excellent client-facing and internal communication skills
5. Excellent written and verbal communication skills
6. Solid organizational skills including attention to detail and multi-tasking skills
7. Strong working knowledge of the Microsoft Office Suite
8. Project Management certification
9. Knowledge of Intervals and JIRA is beneficial

Job Type: Full-time
